PROFESSIONAL SUMMARY

Full

Stack Developer with 5+ years of experience building scalable web and mobile applications. Specialized in React and modern JavaScript ecosystems, with end-to-end ownership from architecture to production deployment. Passionate about clean code, continuous improvement, and delivering solutions that create real business impact.

EXPERIENCE

Full Stack Developer · [TRIPLEI](#)

Oct 2022 – Present · Mexico City

- Led development of core platform modules — Recruitment, Suite, and Notifications — within a multi-client SaaS product used across enterprise accounts.
- Built dynamic, performant interfaces using React and TypeScript, improving load times and UX in business-critical workflows.
- Shipped new features end-to-end: component design, API integration, and deployment coordination.
- Diagnosed and resolved production incidents within 24 hours, maintaining high system availability and client satisfaction.

Mobile / Full Stack Developer (Freelance) · [Interactive Valley](#)

Jun 2025 – Present · Mexico City

- Simultaneously built cross-platform mobile applications using React Native and .NET Core backend, integrating MySQL and RESTful APIs.
- Implemented JWT-based authentication and real-time communication via WebSockets for business-critical app features.
- Set up and maintained CI/CD pipelines with GitHub Actions, automating builds, testing, and continuous deployments.
- Integrated generative AI tools into the development workflow for code generation and review, reducing delivery times.
- Delivered responsive UIs with React and Tailwind CSS, ensuring visual consistency across web and mobile platforms.

Web Developer · [Hybrido Studio](#)

Sep 2020 – Sep 2022 · Mexico City

- Developed web and mobile applications for multiple clients using React, React Native, FeathersJS, and PostgreSQL.
- Contributed to projects including Winko Admin, Winko Front, and Edufarm Web in Agile sprints within cross-functional teams.
- Participated in front-end architecture decisions and conducted peer code reviews to maintain code quality.

Web Developer · [SWPlus](#)

May 2019 – Feb 2020 · Mexico City

- Built functional modules for internal systems (HR and Tomás Moro eSchool) using JavaScript, .NET, and SQL Server.
- Gathered requirements directly from stakeholders and translated business needs into concrete technical solutions.

EDUCATION

B.S.

in Information and Communication Technologies Engineering

Technological University of Xicotepec de Juárez · Jan 2019 – Oct 2021

Associate Degree — ICT, Computer Systems

Technological University of Xicotepec de Juárez · Jan 2017 – Oct 2019
